Swiss Quality Software Since 1968

ELCA is Switzerland's largest independent software development company. Since 1968, our mission is to implement original and innovative solutions with strong added value. Working together with our clients and partners we guarantee system durability

OUR VALUES

Collaborative

Because working together, shoulder-to-shoulder, brings first class results and mutual success.

Well-founded

Because we are passionate about innovation and technical perfection, which creates added value and provides competitive advantages.

Committed

Because working as a team, sharing our experience and knowledge, helps us deliver excellent solutions that make our customers smile.

Independent

Because for us, the result is all that counts and our only responsibility is to please our customers.
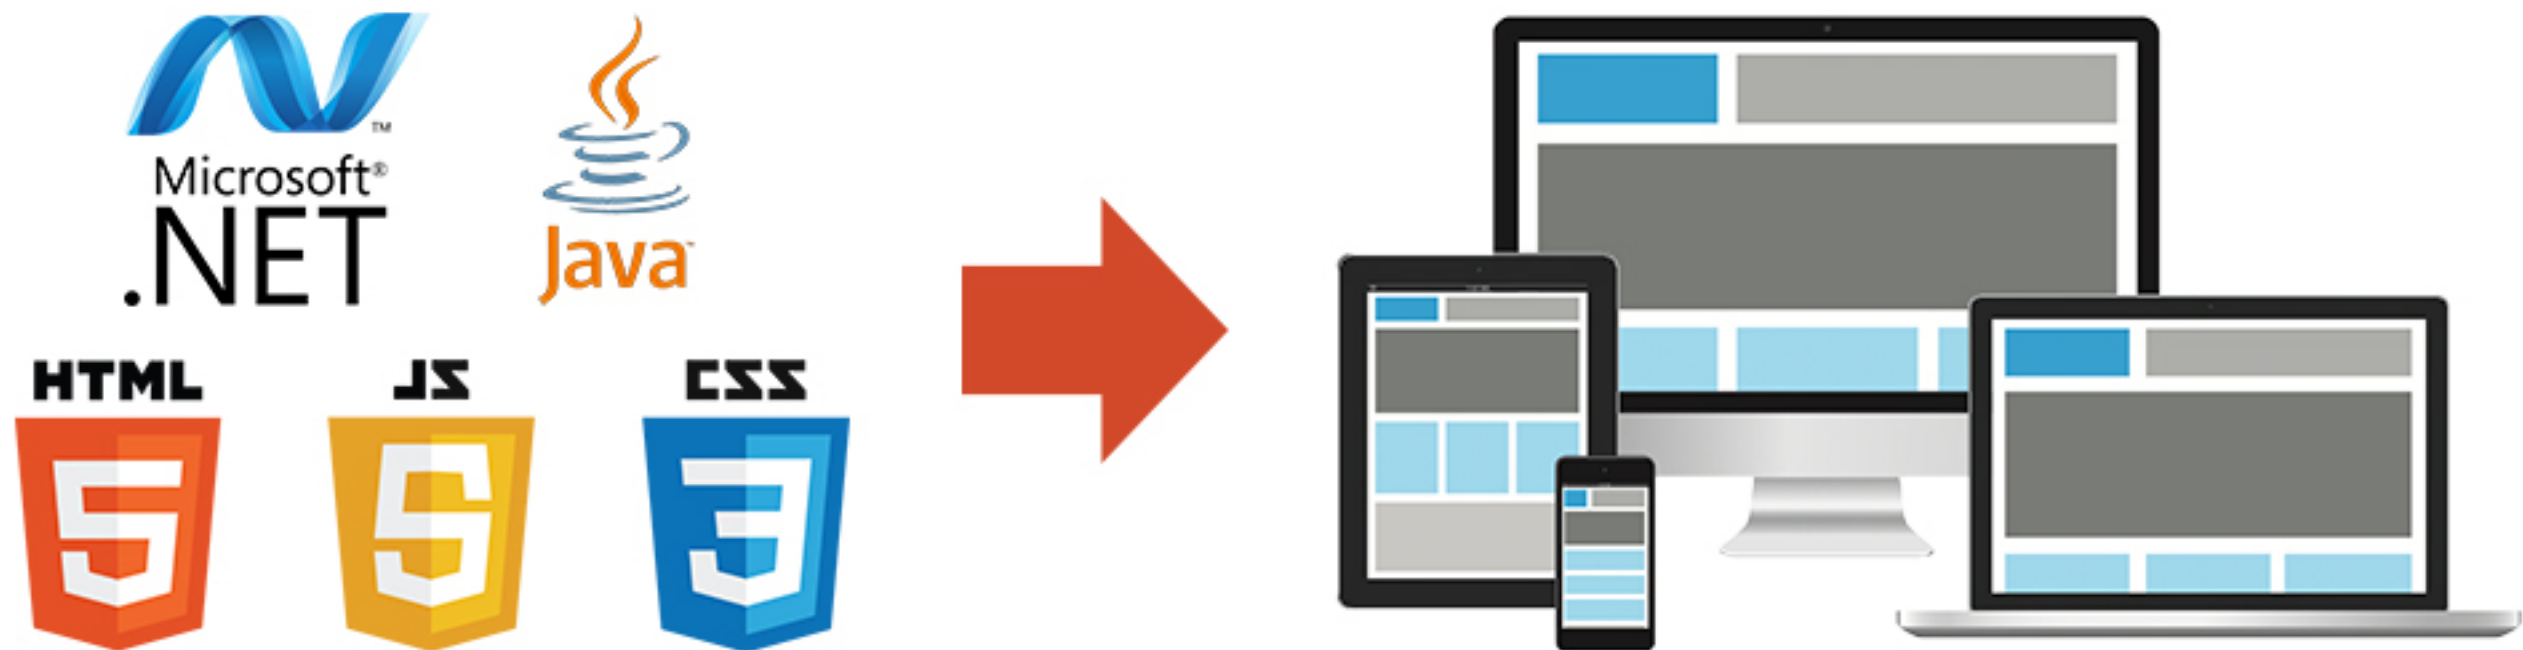

Trustworthy

Because long-term relationships are based on care and trust.

OUR SOLUTIONS

We develop highly diversified and challenging projects,
using cutting-edge technologies and practices and much more...

CAREER SHARING

"When sitting at school, I always dreamed that I would be a skilled programmer and work in a professional environment. This dream became true when I joined ELCA. My skills are cultivated through challenging projects, modern technologies and colleagues' guidance. ELCA also gives me the opportunity to develop my skills to become a project leader. "

PROJECT LEADER Joined in 2010

"With the professional, open and friendly environment at ELCA, I am given chances to develop my expertise in project management, quality assurance and, especially, requirements analysis. The diversity of the projects brings me a wide range of business knowledge. I enjoy communicating with Swiss colleagues to elaborate software specifications. "

BUSINESS ANALYST Joined in 2006

"With my work at ELCA VN, I continuously develop my career path to be a software architect. It is always a pleasure for me to participate in innovative projects using state-of-the-art technologies and to learn from talented, professional and very collaborative colleagues in Vietnam and abroad. "

SOFTWARE ARCHITECT Joined in 2006
