About IFP School

A global status energy institute

IFP School (ENSPM) offers **applied graduate programs**, providing students and young professionals from all over the world with education in the fields of energy which meets the needs of industry and the demands of society with particular emphasis on sustainable development and innovation.

IFP Energies Nouvelles creates companies or acquires stakes in existing companies representing **ideal technology transfer links** in each of its research fields.

IFP Training fulfills, along with IFP School, IFPEN's statutory training mission. It leads **more than 1,200 training sessions** for more than 15,000 technicians, engineers, managers and future leaders in the oil and gas, petrochemicals and engine industries.

Alumni - Who we are
