Titre	-Japanese-Speaking Commodity Broker
Description du poste	On behalf on one of its clients, the French Chamber of Commerce is looking for a LNG Commodity broker Our client is a global broker offering intermediary service, exclusively to institutional clients. The company enjoys a very strong overall presence on both regulated and OTC markets in Europe. The products he looks after are: interest rates, bonds and credit, equities and derivatives and commodities (European gas, LNG and agricultural products). As Asia continues to follow the course of ongoing deregulation in its commodity markets, the demand for cleared long-term contracts and further hedging instruments continues to grow. Requirements Experience in LNG (JKM) Multilingual - Ideally, our client is looking for a Japanese speaker to help the company enter the local market looking at gas and power. Other Asian languages is a plus as the company develops business in Asia. Master's degree in Maths/Business advantageous. Commodity experience; working at a utility or bank sales. Willing to travel and entertain clients on a regular basis throughout Asia. Entrepreneurial work ethic. Must be happy working in a fast paced environment. Benefits Competitive salary and bonus scheme. Including healthcare and pension scheme Training and regulatory exams provided if required. Office based in Singapore. Working from home an option. Be part of a global team, with offices in London, Paris, Geneva, Dubai and New York.
