<b>Partenaire</b>	EVERIS SPAIN SL
<b>Adresse</b>	Rue de Spa 8
<b>Code postal</b>	1000
<b>Ville</b>	Bruxelles
<b>Référence</b>	19D1572349008
<b>Titre</b>	Engagement Manager - Business Consulting
<b>Description du poste</b>	Are you looking for the next step in your career? Join everis!

We are currently looking for an Engagement Manager to join our fast-growing team in Brussels in the Consulting, with the following characteristics:

Your role

- You propose the best approach to effectively tackle a business challenge (business transformation, digital transformation, post-merger management, launch of a new business, etc.): you propose the right approach and the best methodology to deploy it effectively and bring the expected impact.
- You manage work plan, activities and deliverables on business consultancy assignments, ensuring on-time, on-budget and excellent quality deliverables.
- You directly supervise a team of business consultants and possibly working in close coordination with technical experts.
- You engage with client management in meetings and workshops, and you ensure the work delivered meets their expectations and effectively solve their challenges.
- You develop long term relationships with your clients, based on a qualitative contact and a good delivery, and are able to detect new needs for consulting support.
- You contribute to further develop the consulting practice, and train and coach consultants.

Requirements:

- Excellent problem-solving skills - Result-oriented - Great communicator - Strong team - Business knowledgeable
- You have preferably a Master's degree in Business administration, Business engineering or Engineering with a strong business acumen
- You have an experience of at least 6 years post-studies professional experience, in business consultancy. Especially valuable is your experience in business transformation strategy, digital transformation, process optimization, organizational design, business governance, business case modelling and change management.
- You have good understanding of business/IT alignment issues in transformation programs. Attracted by innovative technologies (Blockchain, AI, Big Data etc.), you are permanently looking at ways to turn these into a positive business case for your clients.
- You have experience with products and services companies (manufacturing, transportation, FMCG or retail).
- You are an effective team leader, sharing knowledge and fueling the motivation of consultants
- You show both strong conceptualization and analytical abilities

- You have excellent communication skills, both written and spoken
- You are Native Dutch and/or French speaker, with written and spoken proficiency in English.

Our offer:

At Everis, we make the difference by being close to our clients, exceeding expectations, managing proactively our projects and customers and focusing on quality and selecting employees with the right mindset to make our company grow. The Group has the ambitious goal to position within the TOP 3 worldwide.

We offer a challenging position with a direct impact in a growing company

- Beyond the scope of your direct project, you are part of dynamic and multicultural team, actively building a growing and modern company, open minded, open to diversity, with strong entrepreneurial culture.
- You have the autonomy and freedom to fill in your job and develop your career path within the company. A competitive salary package with a company car.
- You report both to the Partner Head for Business consultancy and to the Head of Industry, both based in Brussels.
