Description du poste	<p>Junior SW Development Engineer (x1)</p> <p>Key Duties / Responsibilities :</p> <ul style="list-style-type: none"> * Involved in full development cycle and achieve the assigned task * Define technical solutions for implementing new functions in the product * Maintain good Code Robustness * Participate in integration testing * Technical support to our customers * Share expertise with other team members <p>Required domain knowledge: * Proficient in C/C++, familiar with Javascript/HTML * Good knowledge of Linux * Experience of embedded software and router</p> <ul style="list-style-type: none"> * Good communication skills. * Good English * Good learning skills and autonomy * Willingness to work in team <p>Education Level (bachelor/graduate...) : Bachelor minimum</p> <p>Years of experience : 1 ~ 3 years</p> <p>Experienced SW Development Engineer(x1)</p> <p>Key Duties / Responsibilities :</p> <ul style="list-style-type: none"> * Involved in full development cycle and achieve the assigned DOCSIS SWAN task * Define technical solutions for implementing new functions in the product * Maintain good Code Robustness * Participate in integration testing * Technical support to our customers * Share expertise with other team members <p>Required domain knowledge:</p> <ul style="list-style-type: none"> * Good knowledge of Linux/openWRT * Good knowledge of SVN/GIT * Excellent knowledge of TCP/IP, Routing/NAT/IGMP/L2TP/RIP/VPN... * Proficient in C/C++/TR069/SNMP, familiar with Javascript/HTML * Proficient in linux kernel/linux networking/linux routing * Understanding of residential gateway functions: WiFi, file sharing,USB,DLNA ... * Experience of embedded software * Good communication skills. * English (read/write) * Good learning skills and autonomy * Willingness to work in team <p>Education Level (bachelor/graduate...) : Bachelor minimum</p> <p>Years of experience : 3 ~ 5 years</p> <p>Experienced SW Development Engineer(x2)</p> <p>Key Duties / Responsibilities :</p> <ul style="list-style-type: none"> * C/C+ development under Linux for DSL/GPON Residential Gateways * Involved in full development cycle and achieve the assigned task * Define technical solutions for implementing new functions in the product * Maintain good Code Robustness * Participate in integration testing * Technical support to our customers

* Share expertise with other team members

Required domain knowledge:

* Good knowledge of DSL/PON, experience of OMCI protocol will be appreciated.

* Good knowledge of Linux/openWRT

* Good knowledge of SVN/GIT

* Excellent knowledge of TCP/IP, IPv6, PPPoE, TR069, SIP and IGMP

* Proficient in C/C++

* Proficient in linux kernel and networking

* Experiences on HTML4.0, Javascript, CSS3.0 and Angular JS will be appreciated

* Understanding of residential gateway functions especially be familiar with fundamental Wi-Fi functions

* Experience of embedded software

* Good communication skills.

* English (read/write)

* Good learning skills and autonomy

* Willingness to work in team

Education Level (bachelor/graduate...) : Bachelor minimum

Years of experience : 3 ~ 5 years

Senior SW Development Engineer(x1)

Key Duties / Responsibilities :

* C/C+ development under Linux for DSL/GPON Residential Gateways

* Involved in full development cycle and achieve the assigned development task

* Define technical solutions for implementing new functions in the product

* Maintain good Code Robustness

* Participate in integration testing

* Technical support to our customers

* Share expertise with other team members

Required domain knowledge:

* Good knowledge of DSL/PON, be familiar with OMCI protocol and experienced on OMCI interoperability debug will be appreciated.

* Good knowledge of Linux/openWRT

* Good knowledge of SVN/GIT

* Excellent knowledge of TCP/IP, IPv6, PPPoE, TR069, SIP and IGMP

* Proficient in C/C++

* Proficient in linux kernel and networking

* Understanding of Wi-Fi 11n/ac, auto channel selection, Wi-Fi mesh. Experience on Broadcom Wi-Fi software performance, interference and interoperability debug will be appreciated.

* Experience of embedded software

* Good communication skills.

* English (read/write)

* Good learning skills and autonomy

* Willingness to work in team

Education Level (bachelor/graduate...) : Bachelor minimum

Years of experience : 5 ~ 9 years

Senior SW Development Engineer(x1)

Key Duties / Responsibilities :

* Involved in full development cycle and achieve the assigned DOCSIS SWAN task

* Define technical solutions for implementing new functions in the product

* Maintain good Code Robustness

* Participate in integration testing

* Technical support to our customers

* Share expertise with other team members

Required domain knowledge:

* Good knowledge of DOCSIS/Cable Modem

* Good knowledge of Linux/openWRT

* Good knowledge of SVN/GIT

* Excellent knowledge of TCP/IP, Routing/NAT/IGMP/L2TP/RIP/VPN...

* Proficient in C/C++/TR069/SNMP, familiar with Javascript/HTML

- * Proficient in linux kernel/linux networking/linux routing
- * Understanding of residential gateway functions: WiFi, file sharing,USB,DLNA ...
- * Experience of embedded software
- * Good communication skills.
- * English (read/write)
- * Good learning skills and autonomy
- * Willingness to work in team

Education Level (bachelor/graduate...) : Bachelor minimum
 Years of experience : 5 ~ 7 years

ETL Engineer(x1)
